BN

Of course you can. If you like, I could send you the original powerpoint image if you wanted to edit it.

Good luck with the PhD thesis. I tried that once. Didn't have the fortitude for it ;P

Subject: BioNinja website - permission to use image in PhD Thesis

Hello,

I'm currently writing a chapter in my PhD Thesis about the clotting cascade and its relevance to blood pumps.

Could I have your permission to reproduce the image of the simplified cascade on <http://ib.bioninja.com.au/standard-level/topic-6-human-physiology/63-defence-against-infectio/clotting.html> in my Thesis?

All the best,

-Rob.
