Sadaf Ghaem-Maghami
Clinical Senior Lecturer in Gynaecological Oncology

Charlie Greenhill,
Imperial College London

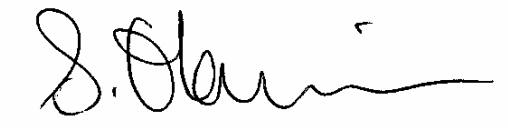

23rd July 2010

Dear Charlie,

I am writing to recommend that Doctor Osama Naji (El-Shareef) is upgraded from DIC registration (November 2009) to MD registration.
Dr Naji has been an excellent clinical research fellow over the past 8 months. He has worked hard and has set up all three aspects of his work successfully and has obtained necessary ethics and R&D approval for them. He has designed data collection sheets and has commenced recruitment of patients to his study. He has shown much enthusiasm and initiative in setting up these studies, has required minimal supervision in tasks appropriate for his level and has gained much skills in ultrasound scanning. He is able to review the literature and has familiarised himself with the present evidence appropriate to his research. He has presented in international meetings already and is an excellent communicator.
Given his drive, enthusiasm and competence, I have no concerns about his ability to complete his MD on time once he is upgraded.

Kind Regards,

Yours sincerely,

Sadaf Ghaem-Maghami
