Subject: Figure Permissions

Dear PNAS,

I am completing my PhD thesis at Imperial College London entitled 'An Experimental Study in the Variation of the Near-Circular Polarisation Properties in Scarabaeoidae Beetles'.

I seek your permission to reprint, in my thesis two Figures from: S. Vignolini, et al "Pointillist structural color in Pollia fruit," 10.1073/pnas.1210105109. The Figure to be reproduced is: Figure 1 and Figure 3 A and B.

I would like to include the extract in my thesis which will be added to Spiral, Imperial's institutional repository <http://spiral.imperial.ac.uk/> and made available to the public under a [Creative Commons Attribution-NonCommercial-NoDerivs licence](#).

If you are happy to grant me all the permissions requested, please return a signed copy of this letter. If you wish to grant only some of the permissions requested, please list these and then sign.

Yours sincerely,
Ian Carter
