Following publication of the original article [1], we were notified that Fig 2b and 2c were duplicated. Figure 2c should be the data from bronchial biopsy.

Also, in Additional Table S1, the values for Female Asthma and Control under Bronchial Brushing were swapped and the last table column should read "Bronchial biopsy" instead of "Bronchial Brushing".

The original article can be found online at https://doi.org/10.1186/s12931-020-01605-8.
