In the version of the article initially published, there was an error in the Table 3 rows reporting progression-free survival for patients without liver metastases, which, now reading "No liver metastases ($N = 17$); 13.8 (7.4, NC)," appeared originally as "No liver metastases ($N = 17$); 11.1 (1.7, NC)," while in the row now reading "Liver metastases ($N = 14$); 2.8 (1.8, 7.4)" the row originally read "Liver metastases ($N = 14$); 2.8 (1.8, 5.3)" The change is reflected in the HTML and PDF versions of the article.
